

The screenshot displays the Blogger 'Basic' settings page. The left sidebar contains navigation options: Overview, Posts, Pages, Comments, Google+, Stats, Earnings, Campaigns, Layout, Template, Settings (highlighted), Basic, Posts and comments, Mobile and email, Language and formatting, Search preferences, and Other. The main content area is titled 'Period 3 - Life is Chemistry Project · Settings > Basic'. It includes sections for 'Publishing' (with a text input for 'period3lifeischemistry.blogspot.com' and a 'Buy a domain' button) and 'Permissions'. The 'Permissions' section has a 'Blog Authors' list with two entries: 'Unknown' and 'Ms. Henderson' (with email 'valerie.henderson@campbell.k12.hi.us' and role 'Admin'). Below this list is a '+ Add authors' link and a note '6 open invitations'. A blue arrow points to the '+ Add authors' link. The Windows taskbar at the bottom shows the time as 9:31 AM on 4/9/2015.

Click on + Add authors

Type in your email address (It has to be a gmail)

Click on **Invite Authors**

Accept the email invitation it will send you.

Post your infographic to our blog!
